

LIBERTY in Restraint

'Liberty in Restraint' follows fetish photographer, Noel Graydon, in his quest for authenticity. In the process of revealing Noel's motives we encounter the clandestine world of bondage and discipline, fetish fashion, and alternative sex. During his journey Noel became a respected BDSM Master. Now, with wife and child, after two exhibitions, he is rapidly gaining mainstream recognition for his unusual fine art photography. This documentary shows his work in progress, the passion for his art and its themes, the community he moves within and their controversial transgressive activities.

Over the last few years, quietly but unrelentingly, filmmaker Michael Ney has been working hard to create an investigative documentary on the Sydney BDSM scene... especially focusing on a fetish photographer Noel Graydon. It also includes "a guide to BDSM with Puck". Early versions have already been warmly received in USA and last October a 35 minute version won "Best Short Documentary" at the CineKink Film Festival in New York. This new feature length version is soon to be released and we are pleased to advise you of the World Premiere screenings in Sydney and Melbourne. Book early as they are likely to sell out soon!

See Noel's photography at: <http://www.noelgraydonphotographer.com/>

The DVD is due for release in May 2005.
